***Claim Rejection under 35 U.S.C. 102(b)***

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 17-20,22-24,26-31 are rejected under 35 U.S.C. 102(b) as being anticipated by Lo et al on record. Lo teaches a non-aqueous composition comprising ivermectin (biological active), Tween 80 (emulsifier), glycerol formal (polyol) and benzyl alcohol (monohydric alcohol). Afterwards the composition (non-aqueous) is diluted with water. Lo teaches a method of administering the above composition via injection. See abstract, column 4 lines 41-64.

***Claim Objection / Allowable Subject Matter***

Claims 21,25,54,55 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. Claims 1-16,32-53,56,57 are allowable. The prior art does not suggest the limitation of these claims.
